Assessor's Notice.

TO THE INHABITANTS AND OTHER PERSONS LIABLE TO PAY TAXES IN THE TERRITORY OF HAWAII:

The assessors of the Territory of Hawaii hereby give notice that their offices will be open from the FIRST TO THE THIRTY-FIRST DAY OF JANUARY, 1902, inclusive, from 9 a. m. to 4 p. m. (Sundays and holidays excepted), and on SATURDAYS until 12 noon, and all persons liable to be taxed in said Territory of Hawaii, either in their own right or as guardian, administrator, executor, trustee or otherwise, are required by law to bring in to the assessors, within the time above specified, true lists of all their polls and estates, both real and personal.

Your attention is called to the following regulations of the Board of Equalization for the assessment and collection of taxes for the Territory of Hawaii:

1. Schedule "A"—In describing town property, give number of R. P. and L. C. A., location, area in square feet, frontage in linear feet, class (whether business or residence property), value of land separately stated, value of improvements separately stated, and total value.

In describing acreage or country property, give number of R. P. and L. C. A. under which the land is held, name of ill or ahupuaa in which situated, area, class (whether pasture, rice, taro, forest, irrigated or unirrigated cane land, etc.), value of land, value of improvements and total value.

2. Schedule "B"—In returning property which you own, or in which you represent the owner or owners, but which said property is leased to others, give number of R. P. and L. C. A., location, name of owner of lease, area, frontage (if city or town property), class (as in schedule "A"), date of lease, term of lease (in years), amount of annual rent, value of your interest in the land, value of your interest in the improvements, and total value of your interest.

3. Schedule "C"—In returning property which is owned by others, but which you control by lease, give name and address of owner, and other details in like manner as called for in schedule "B."

4. Schedule "D"—It is required that this schedule be filled out in detail, and to this end, an extra schedule (schedule "H"), will be furnished with which to detail "Growing Crop of Cane," line 7.

5. Schedule "E"—Appertains to live stock only, and it is required that this schedule shall be filled out in detail.

6. Schedule "F"—This schedule is to be used by fire and marine insurance companies, or their agents, only.

7. Schedule "G"—This schedule is required under section 68, act 51, Session Laws 1896. In order that proper detail may be given, an extra schedule (schedule "I") will be furnished by the assessors.

8. Schedule "K"—It is required that this schedule should contain the description and situation of, and compensation received for, all real estate sold, exchanged, or in any way disposed of, during the preceding year.

9. Section 2, act 51, Session Laws 1896, demands that "All property, except growing rice, shall be assessed as of the first day of January in each year," therefore, all values, descriptions and other matter contained in the tax assessment lists and schedules made a part thereof, must be as of January 1, 1902. Growing crops of all kinds not specified above are taxable.

10. Consignments of property wherever from, in or out of bond, are to be taxed here.

11. Personal taxes shall be paid by every male inhabitant of Hawaii between the ages of twenty and sixty years, unless exempt by law. Secs. 806, 807 and 809, Civil Laws.

12. Your attention is called to the following:

"All personal and dog taxes shall be assessed as of, and be due and collectible on and after the first day of January in each year."

"All personal and dog taxes which shall remain unpaid on March 31st of each year shall thereby and thereon

become delinquent, and 10 per cent of the amount thereof shall be added thereto and become due as part thereof." Section 2, act 51, Session Laws 1896.

Native Papers in Jangle Over Lepers.

ONE JOURNAL SAYS POLLUTION

The Point as to the Effect Upon the Country Furnishes Text for Editorials.

THE WAR over Delegate Wilcox's bill for making Molokai the home of the lepers of the United States is raging among newspapers of the city be polluted," and says:

The Aloha Aina, in opposition to the law, heads its article "Hawaii Nei will be polluted," and says:

"If it is true that the bill which Delegate Wilcox is now working so hard for in America, to make Hawaii nei a dumping ground for all lepers, will pass, then we shall see that the time will come when the attractions which Hawaii nei once had will be no more. It will be soon known by tourists and wealthy travelers of all parts of the world and the result to these islands will be that the historic places and the attractions Hawaii nei once had for the traveling public, and its fair name would become repulsive to them and its hospitable shores would be feared and shunned. There are a large number of our well-to-do and wealthy people of these islands who are decidedly opposed to this bill which the Delegate is trying to pass. They may have their own reasons other than ours in objecting to this bill, which we do not know. But for the good and benefit of our native sons, people of our own blood, from Hawaii to Nihau, 'The Aloha Aina' is ready to oppose to this bill of the Delegate. By this bill the once peaceful homes in the settlement, of the past, will perhaps have more trouble and sufferings through the influx of foreign lepers among them."

"For this reason, that, perhaps, the haole would naturally see that the haole is cared for first, and for us Hawaiians, who can say what will be done for us. Hardships and sufferings would be but for the good and benefit of our native sons, people of our own blood, from Hawaii to Nihau, 'The Aloha Aina' is ready to oppose to this bill of the Delegate. By this bill the once peaceful homes in the settlement, of the past, will perhaps have more trouble and sufferings through the influx of foreign lepers among them."

"Also, a reason for our opposition is our regret (minamina) for the beauty of our fair land and that the coming of lepers from foreign lands will pollute and destroy the beautiful attractions of Hawaii nei for all future time."

In the Kuokoa Home Ruler of Jan. 11, the following is said of Delegate Wilcox's bill for the segregation of lepers:

"On the fourth page of this week's issue will be seen the full text of the bill for the care of lepers to be placed under the management and care of the Secretary of the Treasury's Department of the United States of America."

"This is one of the bills which the Delegate presented to the Congress of America, which is to be commended and for which we should be glad. His heart is full of love for the people of his own race, which he has shown by the work he has planned, and is now under way at the Federal capital at Washington."

"No one person or persons perhaps can say that the lepers at Kalaupapa are being properly taken care of by this Board of Health, the descendants of the missionary wing of the republicans in Hawaii nei."

"The management of this bureau by the Board of Health from the time of the overthrow of the monarchy in January 17, 1893, the authority for the administration of affairs here was taken by force by the descendants of the Protestant missionary republicans, from the work done by them for the people of the soil was cruel and inhuman."

"When the management of the Board of Health was under the Gibson regime the work of the Board and its management was greatly thought of and appreciated by the Hawaiian people. But from the year 1893 to the present time it seems nothing but suffering has been the result for what has been done in Kalaupapa and Kalawao."

"The Hawaiian people are satisfied from the beginning to the end the power of the hand of the laws and rules of the Board of Health, the taking away of this and that Hawaiian for segregation, upon only a very slight blemish or cause for suspicion."

"The future of the people of the soil, our race, is dark indeed, as now we see it with our own eyes where will the Lahui land if this work continues under this Board of Health (bubonics, body incinerators)? From the time the management, care and control of the lepers was in the hands of these missionaries, of Protestant missionary republicans, at Hawaii nei, there always existed complaints from the lepers in Kalaupapa, such as petitions, rows, murgots in the palai, rancid or rusty salmon, insufficiency of food and the hunger of the lepers, with other causes for complaint too numerous to mention. This is one of the diseases of this world which is so repulsive to the white skinned race that we are segregated on some distant place for the reason that our skin is red—and for us all to rapidly pass away and be buried would be the greatest delight of these descendants of the Protestant missionary republicans. The reason is: this will be the means of rapidly reducing the ballots or voters of the native Hawaiians; this the reason pure and simple, with their prayers before God, in the Protestant churches of the descendants of these missionaries in this the youngest Territory in this world."

"This living under their leadership and administration by us can be compared to living in a red hot iron (a native oven); something like our Saviour Jesus Christ while on the cross, when He asked for water to quench His thirst, vinegar was given him to drink. Those doctors who are managing, handling, segregating and giving medical treatment to the lepers, are called in the land of their birth, America, and known as quack doctors, a kind of doctor who treats the ducks and geese, perhaps, but when they come to Hawaii nei, they declare themselves to belong to the highest degree and educated up in the profession as to the dispensing of medicine in all its forms. Whitney & Marsh, Ltd.

America when a doctor fails to cure he is called a quack doctor, and Hawaii nei has become famous for such practices.

"Therefore, what is there to be done for the race—wait in patience is the only thing left for us to do under these conditions, as they have the administration of the affairs of the State; but if we are to take and stick to the views of the newspapers, Lahui Hawaii, the Kuokoa and the democratic paper, Aloha Aina, who are leading and guiding us so stupidly and foolishly, there is an ending to all things, to which end they are leading us of the native race."

"Our race is to be pitted. The love we had in living in this world together, mixing with this and that family as of one, the love for the land of our birth and the love to God for His goodness to save the souls of those who are now being led astray and would be destroyed by the sting of this venomous snake."

The Kuokoa Home Ruler of January 11, 1902, objects to the charges made by the Aloha Aina of the 4th instant wherein it said:

"That Hawaii nei will be polluted—well known to the world as the Paradise of the Pacific Ocean," and says: "The above words were published in the Aloha Aina of the 4th instant, a democratic newspaper, giving its views in reference to the bill presented to Congress by the Delegate, the Hon. R. W. Wilcox, for lepers. The following are our explanations in the premises:

"Is it not a well known fact that for a number of years past that the existence of leprosy in the Hawaiian Islands was not notorious? Did not a German doctor come here to investigate the causes of leprosy disease, and went to Kalaupapa and Kalawao to make extensive researches as to character of the disease. He was here for a number of years, and then departed for Germany—and published books on leprosy in Hawaii nei?"

"Did not Dr. Goto, a Japanese, reside at Kalaupapa and Kalawao for two periods, in the treatment of lepers—and he went back to Japan and also published

books on the leper question in Hawaii nei? Is it then not a fact that Hawaii nei became notorious for the existence of lepers before this and has been so for nearly forty years last past?"

"And for the reason that this bill has been presented by Delegate Wilcox a law whereby the patients will be well taken care of and under such treatment as to restore health, which is our great wish. And not only this, but will be medically treated by physicians, the disease cured and then be free to go to meet their families, the father, the son, the brother, the husband, the wife, and so on, to their homes. Is this what you call the polluting of Hawaii nei?"

"This is a law whereby the race will be saved and not as the Aloha Aina now sees with its own eyes these unfortunate are unceremoniously sent away amid the sorrowful wailings of the husband for the wife, and the mother for the child; these are heart-breaking scenes to behold, and all these sufferings of our race will be alleviated under this law, and our treatment in the future will never be again as has been in the past, but will be more beneficial."

"If the homestead law is passed and goes into effect, remember this, we will see able-bodied Americans will come here and take up homes for them in keeping with the words of our great President. It is his desire for Americans to cultivate farms here. If this takes place, we will have a large influx of white skinned Americans. Hawaii will be filled by them; then, with this, why should there be fear and a dread for Hawaii nei? No brown skinned people will come here; we will not be stoned for the large numbers of lepers coming here from America; there are not many lepers in America as we have been informed; not quite one hundred in number. If this is so, it is next to nothing, for the reason that the population is 75,000,000 and over, and very few lepers, to be compared with our population of only 40,000 native Hawaiians, but we have lepers in large numbers now living in that land of the suffering and

sorrow. The coming of more Americans will fill our country. Then it will be visited by tourists from America and peoples of all nations of this earth; therefore, the race should not be afraid, but wait and be patient, be steadfast."
